War To The End . . . . Declares Boor

OUR COMMANDER-IN-CHIEF, MARSHAL BOOR

FIGHT!?

EDITORIAL

Never in the history of interfaculty sports on this campus has such a dastardly plot been uncovered as that of the theft of our beloved cannon. We must admit that University College's football contingent won their game fair and square, and the Mulock cup, but they committed a black infraction of civil property rights by taking into their possession that which is a highly respected object in the eyes of all engineers on the campus. Used as an announcement for all leading School events, it also acted in the capacity of a warning to all outsiders that something "was cooking" around the School Building (its odour never was too pleasant). The fact that our "blowhard" had been stolen by them was not enough—they planned to humiliate our

(*Continued, column 3*)

THE WILY ENEMY

DASTARDLY ACT

"Their defeat is at hand", read the terse communique from our chief of staff regarding the raging battle between U.C. and School, "our superior intelligence, ingenuity and initiative will get them in the end." In a personal interview with the Commander-in-Chief, Bunky Boor (the "Revolting Rebel"), plans of the attack were outlined (in the proper code, of course) and it seems that the fate of University College has been decided. Arrangements are being made to extirpate the seat of the enemy's forces and it is expected that troops will be deployed for zero hour with their respective weapons in accordance with the plan.

Marshal Boor regaled in his shiny new military dress declared that we had several secret weapons that would make the task of eliminating University College from the geography of the campus *that* much easier.

Details of the attack are given in the Orders (in code, of course) and it is expected that each Skuleman will play his part in the glorious triumph.

foreign secretary by returning it before a gathering of hooting onlookers. Luckily, we retrieved it and avoided the embarrassment.

Later, in order to demonstrate how it worked, we fired the dear weapon for them in gratitude for its being back in our hands but they did not appreciate our gesture of thanks. They made a formal declaration of war (and this is not in keeping with the rules of international warfare).

Let us not then display our fortitude in making School's name stand out more conspicuously and to erase any dishonour from these circumstances.

ORDERS OF THE DAY

Issued by Marshal Boor, Commander-in-Chief, Skule Expeditionary Forces.

Zero Hour—40.43.34 K.L.J.

E.S.T. (Early Skule Time)

Part 1

Troops to be deployed with their respective weapons according to plan 2 II RXQ (see map).

Object—to erase U.C. from map.

Platoon 1—Civil Engineers:

(a) Sanitary engineers to proceed to plug up U.C. Sewage Disposal System.

(b) Structural engineers to undermine foundations of U.C.—Arms —I Beams.

Platoon 2—Mining Engineers:

(a) To open up foundation below U.C. and prepare for disposal of its remains—Arms—Picks.

Platoon 3—Mechanical Engineers:

(a) Bring your catalogues, select suitable conveyor belts and gear sets in order to convey victims from U.C. to the "Meat Grinding Machine" M.K. XXVI 6.

Platoon 4—Architects:

(a) Bring your T-Squares equipped with knife edges to take care of any victims that may escape from ill-fated building. Also notice the faulty architecture as the lair shrinks into nothingness.

Platoon 5—Engineering Physicists Communications Engineers:

(a) Have your 20 foot slide rules with the barbs on the end and the Ray Machine M.K. XXV6Z focussed.

(b) Illumination and Acoustics—have your supersonic vibrations impressed on the walls of U.C. to aid in its destruction.

(c) Geophysicists—will search for possible sources of petroleum as Marshal Boor's fuel ration book is quite used up.

Platoon 6—Chemical Engineers:

(a) Prepare poison gases according to formula X34½Q.6.9, come with hydrogen sulphide also as auxiliary.

Platoon 7—Electrical Engineers:

(a) Prepare Atom Smasher V4Xb for action, focussing it upon the tower.

Platoon 8—Metallurgists:

(a) Place pots of boiling lead super-X over all entrances and windows in readiness for any resistance from within.

Platoon 9—Mining Geologists:

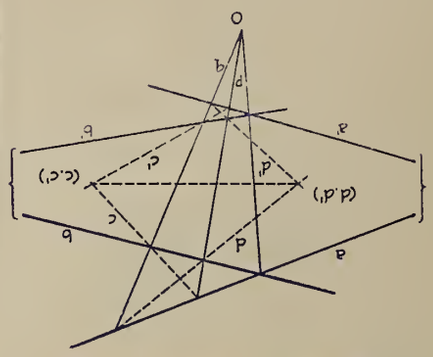
(a) Watch for fossils in the pit left upon the removal of U.C.

Platoon 10—Aeronautical Engineers:

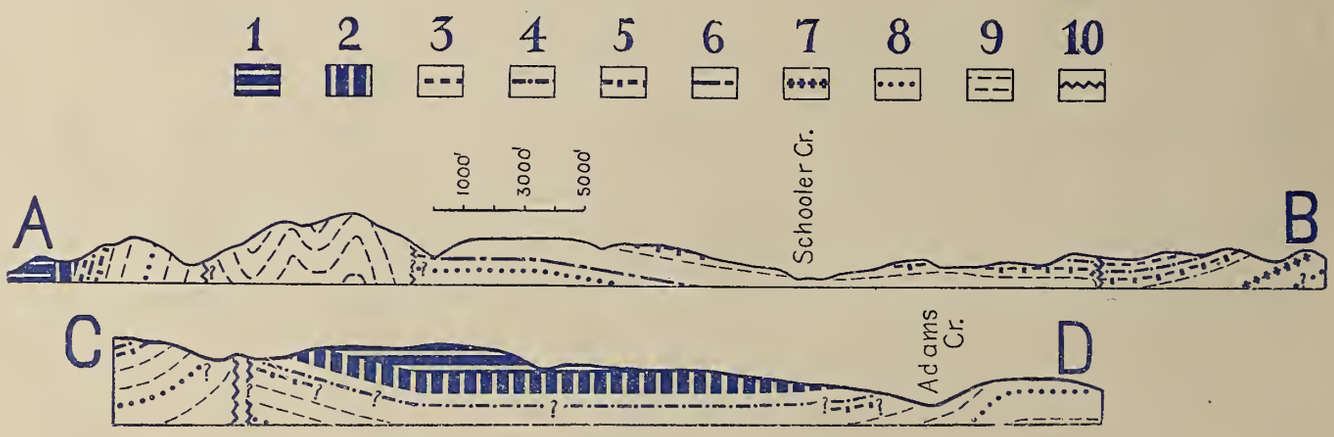
(a) Have your 1,000,000,000,000 super XP-48896Z's prepared to dive-bomb U.C. from 131,000,000,000 miles altitude—accuracy will be required so use bomb sight 29XZ-4631c.

Part 2

After seeing that no vapours are still coming off the building that was, proceed to Whitney Hall . . . and see where it gets you!



Aerial View of Objective



MAP OF ENEMY GROUNDS

THIS WILL GUARANTEE SAFE PASSAGE TO THE REAR TO ANY U.C. MAN WHO HAS IT IN HIS POSSESSION.
